National Geographic Readers: Great Migrations Elephants ...

When an elephant drinks, it sucks as much as 2 gallons (7.5 liters) of

Online Library National Geographic Readers Elephants

water into its trunk at a time. Then it curls its trunk under, sticks the tip of its trunk into its mouth, and blows. Out comes the water, right down the elephant's throat. Since African elephants live where the sun is usually blazing hot, they use their trunks to help them keep cool.
