After renaming his country to Burkina Faso, here's Thomas Sankara's accomplishments, ONLY 4 YEARS in power (1983-87). Thomas Isidore Noël Sankara (21 December 1949 – 15 October 1987) was a Burkinabé military captain, Marxist revolutionary, pan-Africanist theorist, and President of Burkina Faso from 1983 to 1987. Viewed by supporters as a charismatic and iconic figure [...]

List of nationalizations by country - Wikipedia
For more than a half century, the Yugoslav collective body performed enormous ideological and metabolic work, and became exhausted. Rescued from the dustbin of history, it was turned into an “ur” collective body that neoliberal capitalism and the twenty-first century tore limb from limb—dismembering the collective body.

Role of Government in Economic Systems
Charles Adolphe Wurtz (French: ; 26 November 1817 – 10 May 1884) was an Alsatian French chemist. He is best remembered for his decades-long advocacy for the atomic theory and for ideas about the structures of chemical compounds, against the skeptical opinions of chemists such as Marcellin Berthelot and Henri Étienne Sainte-Claire Deville. He is well known by organic chemists for the Wurtz ...

From what I can see, there is a huge conflict of interest w/r/t Radiology (and presumably any medical field) in the US. Radiologists make a lot of money -- and given their jobs are not tied to high CoL regions (as coders jobs are), they make even more on a CoL-adjust basis. Automating these jobs is the equivalent of killing the golden goose.
