Natural law - Wikipedia

The notion of collective responsibility, like that of personal responsibility and shared responsibility, refers in most contexts to both the causal responsibility of moral agents for harm in the world and the blameworthiness that we ascribe to them for having caused such harm. Hence, it is, like its two more purely individualistic counterparts, almost always a notion of moral, rather than ...

growing countries (there is some overlap between these two groups).

Natural Consequences Good Intentions 2

Natural law (Latin: *ius naturale*, *lex naturalis*) is law that is held to exist independently of the positive law of a given political order, society or nation-state. As determined by nature, the law of nature is implied to be objective and universal; it exists independently of human understanding, and of the positive law of a given state, political order, legislature or society at large.
