CARRIER 38AQS008 PRODUCT DATA Pdf Download | ManualsLib

LCD TVs: LCD TVs contain a series of crystals sealed in a polymer. When light shines through the polymer, the crystals reflect back the appropriate image. The light typically comes from a series of fluorescent lights located behind the crystals. LCD TVs have a bright, crisp display, which displays a vivid picture even in bright surroundings.

A liquid-crystal display (LCD) is a flat-panel display or other electronically modulated optical device that uses the light-modulating properties of liquid crystals combined with polarizers. Liquid crystals do not emit light directly, instead using a backlight or reflector to produce images in color or monochrome. LCDs are available to display arbitrary images (as in a general-purpose computer ...

We recently bought a universal remote control for an extra bedroom and needed to find the remote codes to control our existing Sanyo and Toshiba DVD player. We ended up searching multiple websites and still didn't find the code list we needed. So we used multiple sources and gathered up the universal remote control 3 digit codes for most TV, VCR, Satellite, DVD, DVR and Blu-ray players.
