Medical Neuroscience | Coursera

Neuroscience vs Neurology Neuroscience and neurology are both related to the nervous system. Neuroscience and neurology are two fields advancing very rapidly with the advancements in technology. These subjects have a close connection with biology, medicine, chemistry, computer science and even mathematics.

### NEUROANATOMY

Neuroanatomy is the study of the structure and organization of the nervous system. In contrast to animals with radial symmetry, whose nervous system consists of a distributed network of cells, animals with bilateral symmetry have segregated, defined nervous systems. Their neuroanatomy is therefore better understood.
