Talking Book Services. The Mississippi Library Commission serves as a free public library service for eligible Mississippi residents who are unable to read ...

### Neuropathologic Neuroradiologic Correlations Differential Diagnostic

Episodic Memory. The earliest neurofibrillary changes that are part of the pathology of AD usually occur in medial temporal lobe structures (e.g., hippocampus, entorhinal cortex; see Braak and Braak 1991), interrupting the neural network critical for episodic memory function. Thus, it is not surprising that a deficit in the ability to learn and remember new information (i.e., anterograde ...

### The Neuropsychological Profile of Alzheimer Disease

Diagnostic criteria for Joubert syndrome (JS) continue to evolve but most authors concur that the neuroradiologic finding of the molar tooth sign is obligatory [Valente et al 2008, Parisi 2009, Brancati et al 2010]. The diagnosis of Joubert syndrome is based on the presence of the following three primary criteria:
