A forklift is a vehicle similar to a small
truck that has two metal forks on the front
used to lift cargo. the forklift operator
drives the forklift forward until the forks
push under the cargo, and can then lift the
cargo several feet in the air by operating
the forks. the forks, also known as blades
or tines,

control system, with the help of which the operator controls the operation of the forklift truck, changes the speed of lifting and lowering the load, performs diagnostics of the equipment.

Nissan Forklift – Service Manual Download

Some NISSAN Forklift Trucks Service Manuals PDF above page. The beginning of the industrial production of Nissan forklifts dates back to August 1957 at the factory in Totsuka. It is worth noting that the first tests for the production of forklifts by Nissan were made in order to meet the production needs of the company.
