Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

If your freezer won't close, it might be because the lid does not tightly fit the shape of the unit. The lid is designed to be flexible, allowing it to conform to the unit. If you notice that the lid is wrapping at one corner and/or not forming a tight fit, simply raise it and allow it to close sharply—this will help reestablish a tight fit.
