### Nutrition and Physical Degeneration - Price-Pottenger

Dr. Price's fascinating accounts of his discoveries, and the extensive photo documentation he provides, drive home the nutritional truths that are only now gaining general understanding, and Nutrition and Physical Degeneration remains an unequalled source of basic information - a "must for anyone seriously interested in the effects of food on ...

### Nutrition and Physical Degeneration

Proper nutrition will reduce the number of cavities, reduce risk of disease, make childbirth easier and reduce risk of mental and physical deformities in infants and adults. An example of a mental deformity in infants that is related to nutrition is the increased risk of downs syndrome for children born to parents over forty years of age.

Nutrition and Physical Degeneration: A Comparison of ...  
Nutrition and Physical Degeneration is the kind of book that changes  
the way people view the world. No one can look at the handsome  
photographs of so-called primitive people-faces that are broad, well-  
formed and noble-without realizing that there is something very wrong  
with the development of modern children.

Nutrition and Physical Degeneration | Soil and Health Library  
In 1939, Price published Nutrition and Physical Degeneration, a book  
that details a series of ethnographic nutritional studies he performed  
across diverse cultures, including the Lötschental in Switzerland,  
Native Americans, Polynesians, Pygmies, and Aborigines, among many

Nutrition and Physical Degeneration: A... book by Weston A ...  
Nutrition and Physical Degeneration (1939) is an epic written after a  
decade of traveling the world and studying the diets of healthy people  
in isolated locations, compared to the unhealthy diets and bodies of  
“modernized” people eating highly processed foods.

Nutrition and Physical Degeneration by Weston A. Price ...  
These travels, studies and observations are carefully documented in  
his book Nutrition and Physical Degeneration, published in 1939. He  
wanted to understand the key to achieving robust health. In his  
travels which included hundreds of cities in 14 different countries,  
he visited some of the most remote areas of the world.
