2008, AND defined the language to complement the process. This was called International Dietetic and Nutrition Terminology (IDNT) now known as the Nutrition Care Process Terminology (NCPT).

The International Nutrition Care Process and Terminology ...

The Nutrition Care Process is a systematic method to providing high-quality nutrition care. It was published as part of the Nutrition Care Model. Use of the NCP does not mean that all clients get the same care; the process provides a framework for the RDN to customize care, taking into account the client's needs and values and using the best evidence available to make decisions.
