2. A locationist account of the brain basis of emotion. A locationist account of emotion assumes that the category emotion and individual categories such as anger, disgust, fear, happiness, sadness (and perhaps a few others) are respected by the body and brain (see Barrett 2006a for a discussion). The guiding hypothesis of this natural kind model (Barrett 2006a) or modal model (Barrett et al ...

Essay a worn path

A local attorney trying to build a new housing development on 67 acres of former farmland off Kenwood Avenue is suing the town board for denying his application for a waiver that would have allowed the project to move forward amid the town's temporary moratorium on residential construction.

Natural rubber - Wikipedia

Glutamine is a nonessential amino acid. Glutamine can donate the ammonia on its side chain to the formation of urea (for eventual excretion by the kidneys) and to purines (necessary for the synthesis of nucleic acids). Glutamic acid-to-glutamine conversion, in which an ammonia group is added to glutamic acid (catalyzed by glutamine synthase), is of central importance in the regulation of toxic ...
