Temple University College of Engineering

Each vehicle is the brainchild of an automotive engineer. An automotive engineer is the person behind the conceptualization, design, planning and execution of the processes that ultimately result in yet another vehicle. Mathematical acumen and an aptitude for science are the prerequisites for a career in automotive engineering.

Automotive engineering - Wikipedia

They work in a global profession. FISITA exists as the global voice of the automotive engineering profession and aims to bring this community together and encourage the discussion and development of issues facing the international industry. To get involved and join your national society, take a look at FISITA's list of Member Societies.

Automobile Engineering

Overall, Finn Mototech is a very good shop. I whole heartedly recommend them to anyone. They are very honest, friendly, fun to discuss all sorts of things with, and reasonably priced. They are actually a little more expensive than the auto shop I use most of my time in Boulder, which was surprising, but they're not that much more.
