OM600 ENGINE CONTROLS - lofis

The engine is an OM662, which is a 2.9L displacement OM602 variant with prechambers produced by Ssangyong in Korea under license from Mercedes Benz. I started the engine build for the old car, as the old car had thrown a rod which is very common for a high mileage OM662 to do, but a couple of weeks after fitting the engine the car was totalled and I picked up another car that was without an engine.
