Automatic v Manual Wind? | Omega Forums

What is the "proper" winding method? My previous Omega was semi auto. When I pull out the crown, it spins both ways. Does it matter which way I spin it to wind it? I don't wear it daily. I downloaded the manual, but it has instructions by 'calibres'. How do I know which calibres mine is so I can follow the manual properly?

User manuals | OMEGA US®

Manual-winding watches must be wound by hand every day, whereas self-winding watches are wound by an internal rotor which responds to wrist movements. Self-winding watches usually have a power reserve of at least 40 hours and therefore have sufficient energy reserves to maintain a stable rate when the watch is not being worn (e.g. overnight).
