I have a 20 hp (2 cylinder) Onan engine made in 1989 model #P2206-I/105408 (s/nH883424882). I have to run the engine with the choke about half closed or it wants to shut off then on. I have looked at the vacuume fuel pump and it is ok. Now it set over the winter and I didn't put anything in the gas to keep it from gettign rotten.
