Protective Gear. This is what we recommend when a massive amount of onion dicing is necessary. Soak the Onions. This last option definitely works, but it comes at a price. ...

"Onion Tears" Picture Book

The composition of tears caused by emotion differs from that of tears as a reaction to irritants, such as onion fumes, dust, or allergy. Emotional tears contain higher concentrations of stress hormones such as adrenocorticotrophic hormone and leucine enkephalin (a natural pain killer), which suggests that emotional tears play a biological role in balancing stress hormone levels.

How to Cut an Onion Without Crying | Taste of Home

Why does chopping an onion make you cry? Unstable chemicals. Onions produce the chemical irritant known as syn-propanethial-S-oxide. It stimulates the eyes' lachrymal glands so they release tears. Scientists used to blame the enzyme allinase for the instability of substances in a cut onion.

Why does chopping an onion make you cry? (Everyday ...

Just like pepper can make you sneeze, in fiction onions and especially the act of peeling them can produce oceans of tears, looking more like that all your family has died than like the mild eye irritation that occurs in boring Real Life. Oftentimes in fiction onions will make the characters appear to be actually sad, and make loud weeping noises, rather than just leak a bit from the eyes.

How to Cut an Onion Without Crying - Greatist

*The onion (*Allium cepa* L., from Latin *cepa* "onion"), also known as the bulb onion or common onion, is a vegetable that is the most widely cultivated species of the genus *Allium*. It is a member of the family *Alliaceae*, which also includes garlic and chives. Its close relatives include the mushroom, shallot, leek, chive, [2] and Chinese onion.*
