incoming second grader loved it! In my ebook,  
Top 10 Secrets to Great Teaching, I wrote  
about the importance of making math more than  
computation. To help our children understand  
math concepts, they need more than worksheets  
and a list of facts to solve.

We have seen systems of equations that have  
no solutions, one solution, and infinitely  
many solutions. When the lines do not  
intersect, there is no solution. (Lines that  
do not intersect are parallel.) When the  
lines intersect once, there is one solution.  
When the lines are right on top of each  
other, there are infinitely many solutions.
