the enterprise. The advent was with OSB, Oracle standard Benefits. This was able to support an enterprise with linear complexity. However when demand increased for more complex management of Benefits, they came up with OAB.

Dictionary - Guide to Oracle HRMS

A benefit structure is a structure in which the Plan types, plans and options are arranged in a particular fashion based on their availability. Let's first do an exercise by taking an example. We will discuss about the steps later in this section; however now, let's focus on the designing a Benefit Structure.
