series marine engines so the 4M -2500 was not a brand new engine but a new generation engine.

Packard Marine

During the Second World War Packard built both marine and aircraft engines in its huge plant on East Grand Boulevard in Detroit, which was a legacy of its WWI job of building the famous Liberty engine. Packard introduced American mass manufacturing techniques in to the British Rolls-Royce 1650 Merlin inline aircraft engine.

The American Automobile Industry in World War Two - WWII

Packard also built 1350-, 1400-, and 1500-hp V-12 marine engines for American PT boats (each boat used three) and some of Britain's patrol boats. Packard ranked 18th among United States corporations in the value of wartime production contracts.

The Packard V12 Marine Engine - U.S. Crash Boats

Packard V12 Marine Engine. The modelling objective here is to make an operational 1/20th scale Packard V12 Marine Engine that looks like the original V12 engine but is actually an electric motor (and possibly gearbox) housed in a cast shell and when completed it should fit the exact mounting bed of the original engine.

Packard Marine Engines

The Packard 1A-2500 is an American V-12 liquid-cooled aircraft engine designed by Packard in 1924 as a successor to the World War I-era Liberty L-12. Five aero variants were produced, of which the 3A-2500 was the most numerous.

Packard V12 Marine Engine - PT boat

Packard built 14,000 marine engines during the war on East
Grand Avenue, Detroit and the US navy's 768 PT boats were
fitted with three of them, two astern and one amidships for
ease of servicing....

Packard Engine | CSI Automotive Sales, Service & Parts

The Packard V12's that the unlimited class racers used were
not the Packard PT boat engines. The race boats used the
Packard built, Roll Royce Merlin V1650 aircraft engine,
which is a completely different engine and has nothing in
common with the Packard PT boat engine, except that they
both had 12 cylinders.

Packard - Wikipedia

I've always considered the V8, V12 & V16 non-magnetic
marine diesels Packard built for the Navy for mine-sweeper
use as the least-known Packard marine engines. I'm told
some of these were in service as late as the first Persian Gulf
war.
