Pop Internationalism Summary - eNotes.com

In Pop Internationalism, a collection of his recent essays, Paul Krugman claims to have discovered an ideology in the classical sense: the doctrines of national competitiveness and globalization. These ideas are so much a part of conventional wisdom that there's little need to

Krugman defends international trade. Several ideas are put forward. The shrinking in manufacturing sectors (and its related jobs) has domestic causes, in particular the growing share of the sectors of services in the GDP. International trade with low-wage countries has nothing to do with this. The United States buys
