Features. PowerBuilder has a native data-handling object called a DataWindow, which can be used to create, edit, and display data from the database.This object gives the programmer a number of tools for specifying and controlling user interface appearance and behavior, and also provides simplified access to database content and JSON or XML from Web services.

PFC Quickstart | PowerBuilder Journal

A Brief Overview of PFC. The PowerBuilder Foundation Classes (PFC) were introduced with PowerBuilder 5 and enhanced in PowerBuilder 6. PFC is a set of PowerBuilder objects that provide the basis for developing robust PowerBuilder applications. PFC objects provide a consistent framework that can be used across PowerBuilder applications.

PFC Linkage Service - sybase.powerbuilder.general

PFC Sort vs. PFC Linkage I have a datawindow which I used the PFC Sort service on, only to use the column heading type sort. This worked fine. Then I set up the same datawindow to use the PFC Linkage service, using the filter feature. This particular datawindow was the master.

PFC linkage and row manager - sybase.powerbuilder.pfc

The PFC DataWindow control, u\_dw, is one of the most important PFC controls. To use u\_dw, just place it on any window as needed. Since it's a user object, you'll use the user object icon on the PowerBuilder Painter Bar to place an instance of u\_dw. U\_dw works in conjunction with w\_master to handle update and retrieve processing.

When is Identity columns made available in the datawindow ...

2. Create a powerbuilder workspace and create a target.In my case (PBW is PFC\_WorkSpace.pbw and PBT is pfcpp.pbt the application name I used is pfcpp) 3. All all the PFC PBIs to the target the target should look some thing like below Here (C:\Users\Username\Desktop\PFC\_Application) is the ...

PFC Quickstart - PowerBuilder Journal

PFC Linkage service return O? Hi all, I was surprised to learn that the PFC linkage service continue to retrieve the linkage DW if there's no records in the master DW. I found the script below in of\_retrieve() function in pfc\_n\_cst\_dwsrv\_linkage object. // Retrieve the requesting datawindow.

SaveAs - SyBooks Online (Archive)
