LibGen is a unique concept in the category of eBooks, as this Russia based website is actually a search engine that helps you download books and articles related to science. It allows you to download paywalled content for free including PDF downloads for the stuff on Elsevier ' s Science Direct website. Even though the site continues to face legal issues due to the pirated access provided to books and articles, the site is still functional through various domains.

Proform Crosstrainer 55 Recumbent Review - Building Muscle 101  
I just put my Proform 560 together and so far it is a very good treadmill. It is definitely quiet and runs smoothly. You can walk and run on it and it does not make a lot of rambling as much as other cheaper treadmills. My workout was for 30 mins with no problems. The programs to operate are really self-explanatory and manageable.
