Kerri L. Staples, ... Chantelle Zimmer, in International Review of Research in Developmental Disabilities, 2012. 2.5 Vineland Adaptive Behavior Scales. The Vineland Adaptive Behavior Scales (VABS) is a commonly used measure of adaptive behavior skills for children and adolescents up to 18 years of age (Sparrow et al., 1984, 2005). Although it is based on parental report of behavior observed in ...

Programming language - Wikipedia

Object-oriented programming is more than just classes and objects; it's a whole programming paradigm based around [sic] objects (data structures) that contain data fields and methods. It is essential to understand this; using classes to organize a bunch of unrelated methods together is not object orientation.

School of Computer Science < Carnegie Mellon University

"Human knowledge is expressed in language. So computational linguistics is very important." –Mark Steedman, ACL Presidential Address (2007) Computational linguistics is the scientific and engineering discipline concerned with understanding written and spoken language from a computational perspective, and building artifacts that usefully process and produce language, either in bulk or in ...
