Qucs A Tutorial

QucsStudio is not Qucs. While the two share some developers and they are very similar user interfaces - similar to Agilent ADS, QucsStudio has harmonic balance whereas Qucs does not and QucsStudio has a greater integration with Verilog compilation and support than Qucs. Moreover, QucsStudio appears to be upgraded at more regular intervals than ...

Autodesk Inventor - Wikipedia

\\\$\\beginroup\\\$ ngspice is based on Spice 3f5 while most commercial offerings used the Spice 2 code as a base. This does not mean they are worse since the Spice 3 rewrite is not all roses. Back to the point: the most important difference is the change in specification of nonlinear components (POLYNOMIAL vs. normal equation) which breaks many models and treating node names as strings (in the ...
