Robert Sullivan (Author of

Access Free Rats By Robert Sullivan Answers

Rats) - Goodreads

Rats have conquered every continent that humans have conquered, mostly with the humans' aid, and the not-so-epic-seeming story of rats is close to one version of the epic story of man: when they arrive as immigrants to a newfound land, rats push out the creatures that have preceded them, multiply to such an extent as to stretch resources to the limit, consume their way toward famine--a point ...

Robert Sullivan is a naturalist renowned for two previous books, The Meadowlands and A Whale Hunt, both of which received many accolades. One day he realized that to ignore rats (the most common mammal in the world) in his beloved New York City would be to ignore one of America's great immigrant success stories.
