Be for . . .

So to answer the question, we already did the range. There's a 42-year spread between the oldest and the youngest tree. And then the median age of a tree in the forest is at 21. So even though

Download Ebook Reading Grade 2 Spectrum

you might have trees that are as old as 50, the median of the forest is actually closer to the lower end of our entire spectrum of all of the ages.
