Reconstructing Urban Econom... - Researchers - ANU

Urban economics is broadly the economic study of urban areas;

Read Book Reconstructing Urban Economics Towards A Political Economy Of The Built Environment

as such, it involves using the tools of economics to analyze urban issues such as crime, education, public transit, housing, and local government finance. More narrowly, it is a branch of microeconomics that studies urban spatial structure and the location of households and firms. Much urban economic analysis relies on a particular model of urban spatial structure, the monocentric city model pioneered in the 1960s by William Alonso
