John Alfred Prestwich's (J.A.P.) Engines  
A V-twin engine, also called a V2 engine, is a two-cylinder piston engine where the cylinders share a common crankshaft and are arranged in a V configuration. Although widely associated with motorcycles (installed either transversely or longitudinally), V-twin engines have also been used for industrial engines and in several small cars.

S&S Cycle - Wikipedia  
You know — here's the rule book and a blank sheet of paper — let's see what you come up with. Well, that's exactly what happened to V-Twin engine manufacturer S&S Cycle in Wisconsin not too long ago. You see, George Bryce of Star Racing came up with the idea to bring a bonified V-Twin into the NHRA Pro Stock motorcycle ring.
