Like any other plasma television, the Samsung line of plasma screens can suffer from screen burn or stuck pixel issues. Screen burn is an image ghosting effect that is caused by keeping a static image on the plasma screen for an extended period of time. An example would be the logo of a TV station or the menu of a DVD.

Samsung TV Service/Repair Manuals

If your plasma TV screen continues to show red lines across the screen after you have allowed any burn-in to fade and replaced the HDMI cables, the problem may be a faulty plasma display panel. The display panel, or PDP, transmits message to the screen, effectively telling the screen what shapes and colors to produce.
