Chapter 5 Populations, SE

Chapter 5: Populations. Section 5-1: How Populations Grow. Characteristics of Populations 1. Geographic distribution (range) 2. Density ? Population Density: the number of individuals per unit area 3.

5-3 Human Population Growth

Section 5-3: Human Population Growth Like the populations of many other living organisms, the size of the human population tends to increase with time. The characteristics of populations, and the social and economic factors that affect them, explain why some countries have high population growth rates while populations of other countries grow slowly or not at all.

Section 5-1 How Populations Grow(pages 119-123)

5.3.1 Outline how population size is affected by natality, immigration, mortality and emigration.

Natality : increases population size as offspring are added to the population. Immigration : increases population size as individuals have moved into the area from somewhere else and so this adds to the population.
