DBMS provides users and programmers with a systematic way to create, retrieve, update and manage data .

What is Data,  
Database and  
Database  
Management  
System?

A database  
management system

# Download Ebook Seema Kedar

Database Management System Technical  
(or DBMS) is essentially nothing more than a computerized data-keeping system.

Users of the system are given facilities to perform several kinds of operations on such a system for either manipulation of the data in the database or the management of the database
