OpenLibrary is a not for profit and an open source

website that allows to get access to

obsolete books

from the internet

archive and even

get information on

nearly any book

that has been

written. It is sort of

a Wikipedia that will

at least provide you

File Type PDF

Semiconductor

Physics And

with references
related to the book

you are looking for

like, where you can

get the book online

or offline, even if it

doesn't store itself.

Therefore, if you

know a book that's

not listed you can

simply add the

information on the

site.
