Full text of "Social psychology"

Elliot Aronson's primary research is in the area of social influence. Throughout his career he has sought to do experiments that would integrate his passion about basic science with his desire to apply those research findings toward improving the human condition (e.g., to reduce prejudice, deter bullying, and convince people to conserve energy and other natural resources).

Social Psychology Chapter 1 (Aronson, Wilson, Akert) The major difference is that sociology, rather than focusing on the individual, looks at society at large. The goal of social psychology is to identify universal properties of human nature that make everyone susceptible to social influence, regardless of social class or culture.

See other formats. Another explanation is that under some conditions people adopt the views of the people they hang out with. Charles Cooley (1902) called this the "looking glass self," by which he meant that we see ourselves and the social world through the eyes of other people and often adopt those views.
