There is a facebook group called "Topology Without Tears Readers" where readers of the book can communicate with each other. But this is definitely not a place to ask others to solve your homework problems. If you ask questions like "How do you solve the problem ...." your post will be removed and you will probably be blocked from this group.

The study of topology and  
its spaces is an important  
aspect of  
mathematics, topological  
spaces like other  
mathematical spaces have  
axioms that must be  
satisfied for a topological  
space to hold. Today i will  
be treating those axioms

Manual. The main solutions manual is solutions.tex. Some solutions have figures, which are done directly in LaTeX using the TikZ and PGFPLOTS packages. The python directory contains some quick and dirty Python scripts that were used to gain insight while working on some of the exercises. These are not documented at all and so probably will not be of interest to anyone else.
