**TM - Sony
FD Trinitron/WEGA is Sony's
flat version of the Trinitron
picture tube. First introduced
in 1998 on Sony's 32-inch and
36-inch televisions, this
technology was also used in
computer monitors bearing
the Trinitron mark. Flat CRTs
reduce the amount of glare on
the screen by reflecting much
less ambient light than
spherical or vertically flat
CRTs.**
