I used to have the Touch Diamond which had 2 really neat bird noise ring tones loaded on it. I have recently switched to the HTC Hero (which I absolutely LOVE) and wanted to transfer those ring tones from my Diamond to the Hero but I cannot locate them on the Diamond when I explore. Is there any w...

The funny thing is, i also have another HTC Touch diamond phone that I have working on an individual plan. I've been messing around with it and changing accounts and *228/option 3 works fine on that phone. But on the new HTC Touch diamond, I can't seem to get it to work. I know it used to work, but it doesn't work anymore.
