You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

I'm kind of new to the Reddit world but I am familiar with the concept of tl;dr. What I want to know is who decided tl;dr's belong at the end of a post? If people are looking for a summary so they don't have to read the whole thing, wouldn't putting tl;dr at the top spare them all the scrolling, or act as an abstract for people who aren't sure if they want to read the whole thing?
