In a case of an abdominal aortic aneurysm, the palpitation on the abdomen can be the only symptom of the disease for many years. Unlike the classic palpitations, abdominal palpitations due to the aortic aneurysm are noticed more as a pulsating feeling near the navel than an awareness of the heart beating, or an abnormal skipping beat.

### **Stomach palpitations symptoms - Answers on HealthTap**

You were right, the palpitations did reoccur, though only twice since the 10/30 and 10/31 episodes, once on 11/04 and the other on 11/08. On both of these occasions, it only lasted about a second and felt more like an extra forced beat or 2, nothing that I would normally think much about - unlike earlier when it would beat rapidly for several seconds and up to almost a minute the first time it ...

### **Bloated stomach and heart palpitations**

Heart palpitations after eating can be caused by consuming large meals. Following the consumption of food, the body directs blood flow to the digestive tract in order to assist with digestion. The amount of blood flow to the abdomen increases based on the size of the meal consumed.

### **Stomach palpitations | General center | SteadyHealth.com**

The other type, ones that come insidiously, create quite a bit of distress and could be from something quite innocuous or a cause that needs medical attention. If you have stomach gas at the same time you have palpitations, that narrows the potential causes.

### **Stomach Palpitations - HealthHearty**

There are some easy and effective ways that help in reducing stomach gas and easing heart palpitations. 1. Burping- burping eliminates the gas within the stomach and, therefore, reduces the stomach pressure over the Vagus nerve. If finding it difficult to burp on your own, you could use Simethicone, which is drug that prompts burping.
