Limousine - Wikipedia

The first records, of stretch limousines being built, date back to 1928 in Fort Smith, Arkansas by coachbuilder, Armbruster. The coachbuilder referred to their lengthened vehicles as 'extended-wheelbase multi-door auto-coaches', and they were primarily used to transport famous 'big-band' leaders and their bands and equipment.

Why are stretch limousines so long? What's the

Online Library Stretch Limousines 1928 2001 Photo Archive

difference between the regular limo and the stretch limo? Well, first of all, a limo isn't a brand but a characteristic. It's a car that's long enough to have a private passenger area and sufficient separating room from the driver. Originally, the idea of the limousine was to give passengers privacy. The first official stretched giant didn't ...
