A style guide is about consistency. Consistency with this style guide is important. Consistency within a project is more important. Consistency within one package, class or method is the most important. However, know when to be inconsistent – sometimes style guide recommendations just aren't applicable. When in doubt, use the best of judgment.

### **Great UI Design Requires Smart Style Guides**

Notable is a content creation and sharing app that allows you to quickly capture content on your device screen, mark it up with text or free-form drawing tools, and quickly share it to your friends. The screen capture is triggered from the device convenience key, assigning as a swipe gesture shortcut, or by tapping the dedicated screen capture notification in the notification tray.
