Sulzer (manufacturer) - Wikipedia

Sulzer built diesel engines for stationary, road, rail and marine use. The engine types usually comprise a number, then some letters, then another number. For example, 6LDA28 indicates a six-cylinder engine in the "LDA" series with a 28cm cylinder bore. Stationary [edit]

sulzer engine, 6LDA28, LVA24 - derbysulzers.com

Sulzer became the worldwide market leader for the low-speed marine diesel engine in 1963. By 1966 Sulzer was providing one-third of engine capacity for newly launched oceangoing vessels, representing almost 2.5 million horsepower in total. The first low-speed marine engine in the world running on gas entered service in 1972.
