Heated Bedding Manuals at HolmesProducts.com.

Your Sunbeam® Warming Product is designed to provide the appropriate heat to help maintain your body's own warmth and to keep you comfortable. It does not operate like a heating pad or older electric blankets you may have used years ago. When you touch the warming product, it may not feel hot to the touch.

How to Troubleshoot a Sunbeam Blanket | Hunker

Plug the power cord into a electrical outlet, turn the blanket "on" and set it to the highest setting. Wait for a few minutes (never more than 7), then place your hand between the folds to check if the blanket is heating. If not, you may want to try and reset it or contact Sunbeam's helpline.

Sunbeam Canada Instruction Manuals - Heated Bedding Products

To check if it is heating, Sunbeam recommends performing a fold test. To do this, fold the blanket as if you were about to put it away. Without unfolding it, find the controls, make sure the control is well connected to the module and plug the power cord in. Switched the blanket "on" and set it to the highest temperature.
