Edelbrock.com: Supercharger Systems for Chevy, Ford

...

The twin-screw design is more efficient than the Roots-type design, and this type of supercharger costs a lot more to manufacture than the Eaton and Aisin units we just looked at. The Miller Cycle engine in the Millenia S doesn't take full performance advantage of the boost potential of the IHI blower (the Miller Cycle design is more about fuel efficiency than balls-to-wall power), but it
