Sustainable energy - Wikipedia

It's more likely, however, that you're seeking sustainable power solutions with a little more juice. Something that can power slightly larger appliances like a fridge or heater, but can also charge cellphones, laptops, and GPS devices. In that case, a Goal Zero Yeti Portable Power Station or the new Dometic PLB40 may better suit your needs. Both function like little on-the-go electric generators, with easy-to-read screens and a lightweight, compact design.
