The goal here is to create a collection of videos and other info directly related to bouldering at Lincoln Lake, Mount Evans, Colorado. At this point this is an old site that did its best to collect info during a period of high development in Lincoln Lake.

Lincoln Lake Bouldering | An illustrative compilation of ...

I'm not sure whether these boulders are going to make it into the new guide...they would be a pain to describe as they are so spread out. Situated on the banks of Becka Brook near Trendlebeare the boulders on either side of the stream can be reached directly using separate approaches (one from Trendlebeare Down, the other from Water (near Manaton)), although the river is easy enough to cross.

Brimham Bouldering. There are a number of good guides to the bouldering at Brimham Rocks but most are either old or selective. The Brimham Project is an attempt to document all that is currently available and to point out gaps that may exist. There have already been some very good finds since the project kicked-off and more identified.

This boulder is easy to find, just follow the directions in the guide for the stage coach boulders. This boulder is simply one more boulder in from the stage coach road in relation to the other boulders there. In other news all the boulders in general have been drying out quite a bit lately, and it seems as if most of the areas are climbable.

Forest Rock - Draft Guide Forest Rock - Draft Guide (Alternative Version) These are draft versions, the grades are not all correct but the lines and descriptions may be helpful. Progress has stalled at the moment. I hope to return to this guide in the future but it is not possible at the moment.

Forest Rock - Cademan Bouldering Guide

the purposes of this guide, Northwest Branch is divided into three areas, which will be listed in order of approach. ! The North Bank section is reached directly from the parking lot trail, and contains the majority of the established bouldering. The South Bank section can be accessed via a variety of crossings, but the safest

by Robin Close

guide book is a collection of unverified information and is always changing and extremely subjective. The area will never be a destination area due to; loose, grainy rock, rattle snakes, cactus, rednecks, and a myriad of other dangerous variables. The area is in its infancy in relation to bouldering

and many problems still require

MADISONRIVERBOULDERING(GUIDE((Montana(Bouldering is a form of free climbing that is performed on small rock formations or artificial rock walls without the use of ropes or harnesses. While bouldering can be done without any equipment, most climbers use climbing shoes to help secure footholds, chalk to keep their hands dry and to provide a firmer grip, and bouldering mats to prevent injuries from falls. Unlike free solo climbing, which is also performed without ropes, bouldering problems are usually less than 6 meters tall. Traverses
