### The Cold War Bipolarity Structure And The Power Vacuum In ...

Abstract. We describe the reality of the bipolar Cold War and how it is only partly reflected in polarity theory and neorealism. The period was marked by the combination of power bipolarity (two superpowers), cluster bipolarity (bipolarization), and a military and ideological confrontation between two blocs with different economic and political regimes.

### The Cold War Bipolarity Structure And The Power Vacuum In ...

From that, nucleus tensions between the US and the USSR erupted, not into a "hot" war where both countries took armies into the field to light it out, but into a cold war. A cold war meant the two ...

### The politics of bipolarity and IPE in contemporary times

Any supposed international power structure that owes its existence to a single mastermind is not an international power structure at all. Even Joseph Stalin, absolute dictator of the Soviet Union for decades, did not "create" the bipolarity of the Cold War era.

### Why the Cold War Containment Model Doesn't Apply to the ...

And as international relations theory would have it, when the structure of an international or regional system is bipolar, the dominant logic is one that is characterised by serious geopolitical competition between the two main powers, not unlike the rivalry between the US and the Soviet Union during the Cold War.

### From Bipolarity to Bipolarity: International Relations ...

The end of the cold war did not return the world to multipolar-ity. ... "Bipolarity, Multipolarity and the future, ... raises issues that scholars grappled with during the cold war, namely, about the structure and dynamics of different types of polar systems.

### Polarity (international relations) - Wikipedia

Bipolarity can be defined as a system of world order in which the majority of global economic, military and cultural influence is held between two states. The classic case of a bipolar world is that of the Cold War between the United States and the Soviet Union, which dominated the second half of the twentieth century.

### Can We Benefit from Bipolarity - NUS

What is the current structure of international relations? No topic has generated more heated, erudite debate since the end of the Cold War in 1991. I will argue that today's global structure is one of "emerging bipolarity." The US and China are superpowers, the rest lag far behind.
