"A fast-paced, brilliant recounting of the turbulent last days of the Third Reich. With all the energy and chaos of a Jackson Pollock canvas, *Eight Days in May* evokes the complete and utter chaos of a collapsing society. We see victor and vanquished, persecutor and victim, and witness an empire as it falls from its savage heights to the depths of a despised and defeated nation." ?Helmut ...

The burn rate of just the base salaries for engineers would have been around \$30M/year (150 x \$200,000), not counting sign-on bonuses. Engineering was a third of the company's headcount, though likely a more expensive third. With this math, it's not hard to understand how Fast burned through its \$100M investment in just over a year.
