What is Contingency Theory?

However, unlike situational theories, contingency leadership theories are based on the premise that leadership styles are fairly rigid or relatively inflexible. Therefore, it is very difficult, if not impossible, for a dictator or a task oriented leader to change his / her style to becoming a participative or employee oriented leader. This category, therefore, suggests that for a school head to be successful or effective, the officials in the

Fiedler's Contingency Theory - leadership-central.com

Contingency theories are that there is no one leadership style and that the nature of those being led, the make-up of the leader and the tasks facing a group are different. Each situation is unique and the ideal leader-led situation will be unique, as well.

The Contingency Theory Of Leadership

The contingency theory of leadership was one of the first situational leadership theories. One of the very first contingency theories was proposed by Fred. E. Fiedler in the 1960s. Fiedler's theory proposes that a leader's effectiveness hinges on how well his or her leadership style matches the current context and task.

Contingent Leadership - Practical Management

The Fiedler Contingency Model asks you to think about your natural leadership style, and the situations in which it will be most effective. The model says that leaders are either task-focused, or relationship-focused. Once you understand your style, it says that you can match it to situations in which that style is most effective.

Contingency Theory of Leadership - What is it? Definition ...

Contingency theories of leadership focus on particular variables related to the environment that might determine which particular style of leadership is best suited for the situation. According to this theory, no leadership style is best in all situations.
