Our shared understanding of the meanings of words is ever-changing, and we make conscious, rational decisions about which words to use and what to mean by them every day.

## **The Domestication of Language Quotes by Daniel Cloud**

The Domestication of Language brings an important new perspective to an extraordinarily difficult and important topic: the evolution of language. Language is the result of intelligence: an invented social and communicative technology, invented not by a Promethean genius, but multi-generationally by us all as we respond to and experiment in our specific situations.
