The Engines Of European Integration

The second part of the book focuses on the role of supranational agents in both the liberalization and re?regulation of the European market, and suggests that the Commission, Court and Parliament have played a causally important role alongside member governments as the 'engines of integration', but that their ability to do so has varied historically and across issue?areas as a function of the discretion delegated to them by the member governments.

The engines of European integration : delegation, agency ...

The European Union is composed of its fifteen member governments, yet these governments have chosen repeatedly to delegate executive, judicial and legislative powers and substantial discretion to supranational institutions such as the Commission, the Court of Justice, and the EuropeanParliament. In The Engines of European Integration, the first full-length study of delegation in the European ...

Book Review: The Engines of European Integration ...

"Acting as a custodian of European interests [and] as a repository of past achievements, Delors declared that the Commission has a cherished obligation to point the way to the goal ahead." The intention of the founding fathers of the European Union was to create a supranational institution that would be the engine of European integration – an institution that would be independent from ...

The Engines of European Integration: Delegation, Agency ...

The Engines of European Integration: Delegation, Agency, and Agenda Setting in the European Union By Mark A. Pollack The subtitle warns the reader that this detailed and exhaustive study of the EU's institutions relies heavily on the literature and language of political science, specifically the models developed by the "rational choice" school.

The Franco-German Engine & the European Integration ...

Pollack (2003) has emphasised that the European Commission, the European Parliament and the European Court of Justice have all played an important, albeit varied, role as engines of European integration alongside the governments of the Member States. It is true that the powers of agencies are more limited than those of these three institutions.
